DETAILED ACTION

Election/Restrictions

Newly submitted claims 56-63 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 56 requires analyte prediction and the collection of samples.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 56-63 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

Claims 1-55 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record, taken alone or in combination, fails to disclose or render obvious, a system for calibrating a spectrometer that includes classifying the spectrometer instrument into at least one of a plurality of predefined clusters on the basis of features extracted from a spectrum; and providing at least one calibration model for each of the predefined clusters, in combination with the rest of the limitations of claim.
